BENEFITS OF AN ATM

REDUCE PROCESSING FEES

Save on all fees per transaction, flat rates, and annual. Keep more money in your pocket when you provide cash as an alternative to your customers and reduce overall processing fees.

An on site ATM keeps your customers from leaving your business to search out their need for cash elsewhere, which means they keep spending with you!

RETAIN YOUR CUSTOMERS

MAKE CASH AVAILABLE TO INCREASE YOUR SALES

When cash is available that allows you to increase your amount of sales in house and keep customers happy.

With an ATM on site you will draw new foot traffic to your business who need to access their cash immediately. Studies show 3/4 of customers make an impulse buy in the store in which the ATM is located.

ATTRACT NEW FOOT TRAFFIC

RECEIVE MONTHLY PROFIT

We share the ATM usage fee with you and you incur no operating costs or maintenance fees. This is a hands off approach to making money while providing it at the same time.

**You can even run ads on your ATMs or provide coupons to your customers!*
